

**198 Series**  
**120 Volt Radiant and/or**  
**Fan Forced Portable Heater**  
 Data Sheet

**General Characteristics of Fan Forced Portable Heater 198 Series**

Our 198 Series is a combination heater including radiant and fan forced heat.

For indoor and outdoor use.

For outdoor use it may require an enclosure, as it is not water proof or rain-tight.

It has 3 Heat settings: 600 watt radiant, 900 watt fan forced, and 1500 watt radiant & fan force.

It includes a temperature control thermostat.

Dual Safety System includes a tip over switch and manual reset type limit control

Cord Type is a 6ft. long, 3 conductor cord

It is ETL-CETL Listed.

**Product Applications of Fan Forced Portable Heater 198 Series**

Recommended for all industrial, commercial, and residential applications where portability and high heat ratings are needed.

Used frequently in office spaces, work shops, garages, homes, schools, and medium to small spaces where portable heat is required.

**Warranties and Guaranties of Fan Forced Portable Heater 198 Series**
