

### General Characteristics of 2000 Series Line Voltage Thermostats and Controls

Are used in industrial and commercial environments.  
 Used indoors for spot heating.  
 The 2000 Series line voltage is a heat only model control that range from 50° to 90°F.  
 Operates with 22 Amps and 277V AC.  
 Comes in single & double pole designs with leads, double pole models incorporate positive off.  
 Imported to TPI Corporation specifications.  
 Compliant with RoHS2 directive (2011/65/EU), that of which includes the application exemptions outlined in Annex III of the directive.  
 The 2000 series is ETL-CETL listed.

### Product Applications of 2000 Series Line Voltage Thermostats and Controls

For Industrial and commercial environments.  
 Utilized in warehouses, factories, and work areas.  
 Ideal for spot heating of work areas  
 This is an Indoor Product

### Warranty of 2000 Series Line Voltage Thermostats and Controls

Manufacturer's Limited Warranty: 1 Year.

### Specific Characteristics of 2000 Series Line Voltage Thermostats and Controls

| Item #           | Manufacturing # | Description            | Volts V | Amperes A | Temp. Range (°F) | Color | Weight and Dimensions with Packaging |           |
|------------------|-----------------|------------------------|---------|-----------|------------------|-------|--------------------------------------|-----------|
|                  |                 |                        |         |           |                  |       | Lbs.                                 | L,W,H In. |
