

**General Characteristics of Portacool 48" Hazardous Location Evaporative Coolers**

The Portacool 48" Hazardous Location evaporative coolers are ideal for residential, commercial, industrial and agricultural use. Used for indoor and outdoor use. These are not air conditioners or misters but evaporative coolers, plus are less expensive to run than an air conditioner. Perfect for cooling areas where airborne gas or debris is potentially combustible. Equipped with sealed switches, cords, motors and pumps to prevent sparking. Made from polyethylene so they don't rust, crack or leak. Comes with a variable speed fan, cord wrap and 4 castors. Heavy duty castors are standard on the 48" coolers and optional for the rest. These items are easy to operate, clean and maintain. Maintained properly the pads should last between 3-5 years. The Evaporative coolers cool areas from 600-1000 to 4000 square Ft., and lowers the temperate by 15-25°F. Designed with a water control valve, water release valve and flow valve to fill the reservoir. Depending on the model the reservoirs can hold up to 40 gallons of water. Designed with water control valve and centrifugal air delivery. Are environmentally friendly. Comes fully assembled, with locking castors, also comes in multiple selections of colors. Made in the U.S.A. with domestic and foreign parts.
