

CPBS-D Series

Commercial Direct Drive Portable Blowers Data Sheet

General Characteristics of CPBS-D Series Commercial Direct Drive Portable Blowers.

Direct drive fans offer higher energy efficiency, reduced maintenance requirements, compact design, quieter operation, higher reliability, and improved safety compared to fans with direct drive systems.

CPBS-D Series high speed blower with rotary or rocker switch and swivel type base. It features two speeds, energy saving, and is designed for traditional indoor or outdoor applications.

With 120V non-oscillating circulation it is resistant to corrosion. It has a black finish, aluminum sheet of 24" and 30" in diameter.

SJT type cable-3 conductors. Front and rear coiled wire guards. 5" rubber wheels with black powder-coated 20-gauge steel housing.

It offers high airflow and provides easy installation. Meets OSHA standards.

Product Applications of CPBS-D Series Commercial Direct Drive Portable Blowers.

They are used around the world to detect cold assembly lines, machine shops, bakeries, loading docks, laundromats, gyms, auto repair shops, warehouses... anywhere a large volume of air movement is required.

Warranty of CPBS-D Series Commercial Direct Drive Portable Blowers.

Manufacturer's Limited Warranty: 1 Years.
