

**General Characteristics of DamperAlum
 Turbine Damper**

The DamperAlum is an Aluminum damper and collar made for Aluminum turbines and bases.
 For industrial, commercial and residential use.
 For outdoor use.
 These units can be closed manually, and is perfect for keeping the heat in the house during winter or low temperature days.
 Units come with a 10 foot pull chain, for opening and closing inner flap.
 These units are available in four different material options Aluminum, Galvanized Steel, Stainless Steel & Copper.
 The DamperAlum dampers are made from Aluminum, with excellent manufacturing detail.
 These damper units are great for saving money on energy bills.
 DamperAlum's install easily into the turbine bases.

**Product Applications of DamperAlum Turbine
 Damper**

These bases are used with our Turbine Vents for ventilation in small, medium, and large areas, bathrooms, warehouses, factories, commercial buildings, and all large ventilation projects.
 Used for industrial, commercial and residential use
 For outdoor use

**Warranty Industrial of DamperAlum Turbine
 Damper**

Manufacturer's Limited Warranty: 10 Years, void with Tornados, Hurricanes, and Chemical Destruction

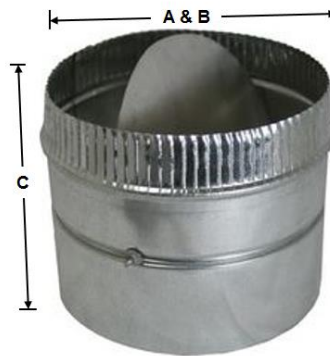

Specific characteristics of DamperAlum Turbine Damper

Item #	Manufacturing #	Size Ø(In.)	Material	Weight and Dimension with Packaging
