

General Characteristics of Ebac QZI3000 Infra-Red Surface Spot Object Heater ExtraDry

The Ebac QZI3000 Infra-Red Surface Spot Object Heater works as a heat beam. Heating the surfaces where the beam touches. 90% of the energy is converted to heat.

The Ebac QZI3000 Infra-Red Surface Spot Object Heater does not require oxygen, so ventilation is not required. The heater does not produce gases so there is no buildup of odors, fumes, or water vapor as with paraffin or LPG Heaters.

The Ebac QZI3000 KEY DESIGN FEATURES are:

- Directional heat beam.
- Instantaneous heat.
- Portable with wheels.
- Heats people or objects, not air.

Applications of Ebac QZI3000 Infra-Red Surface Spot Object Heater ExtraDry

The Ebac QZI3000 Infra-Red heaters are unique. The Ebac QZI3000 is noted for its efficiency, economy, safety, and environmental friendliness. With this kind of heater you can heat a specific spot, dry a freshly painted wall, or an object. Heat from the Ebac QZI3000 heater is instantaneous, making it ideal for builders, plasters, and painters as they move from room to room.

Warranty of Ebac QZI3000 Infra-Red Surface Spot Object Heater ExtraDry

The Ebac QZI3000 heater by Ebac has a 1 year limited manufacturer's warranty.
