

General Characteristics of HDH Series Industrial Heavy Duty Air Circulators

The HDH Series is an air circulator with pedestal, wall mount, I-Beam mount, ceiling mount and wheel options. Has easy access hinged guards for maintenance purposes. Is used in industrial and commercial environments. Used for indoor and outdoor use, for cooling and high volume air movement. In the case of outdoor use, they must have protection against the elements. Steel hub/spider aluminum paddle blades, plus powder coated steel guards. Mounting styles include ceiling mount, wall mount, I-Beam, Pedestal and pedestal with wheels. Pull chain switch. With 12' long SJT type 3 conductor cord. Motor Specifications: 2-speed, 1/2HP, 1 phase, 120V, ball bearing style, totally enclosed, permanently lubricated, permanent split capacitor, 1/2 shaft with a frame size of 48". Pedestal Specifications: pedestal pole adjusts in the center of the fan from 48 to 67 inches and pedestal steel dome base is 27" in diameter and has 5 carriage bolts. Meets OSHA standards and is ETL-CETL listed. Also made in the U.S.A. with domestic and foreign components.

Product Applications of HDH Series Industrial Heavy Duty Air Circulators

For industrial and commercial use. Good for indoor and outdoor use, in the case of outdoor use, protection may be need from the elements. It is used to cool factories, shops, bakeries, loading docks, laundries, gymnasiums, warehouses, aircraft hangars, and virtually any place a high volume of air movement is required.

Warranty of HDH Series Industrial Heavy Duty Air Circulators

Manufacturer's Limited Warranty: 5 Years.
