

General Characteristics of Portacool Hurricane 3600 Evaporative Coolers

The Portacool Hurricane 3600 evaporative coolers are ideal for residential, commercial, industrial and agricultural use. Used for indoor and outdoor use. These are not air conditioners or misters but evaporative coolers, plus are less expensive to run than an air conditioner. Made from polyethylene so they don't rust, crack or leak. Comes with a variable speed fan, cord wrap and 4 castors. Heavy duty castors are standard on the 48" coolers and optional for the rest. These items are easy to operate, clean and maintain. Maintained properly the pads should last between 3-5 years. The Evaporative coolers cool areas from 600-1000 to 4000 square Ft., and lowers the temperate by 15-25°F. Designed with a water control valve, water release valve and flow valve to fill the reservoir. The reservoir can hold up to 65 gallons of water. Comes with low water shut off, timer, temp. sensor & digital control operation, plus it also has a lifetime warranty on the molded housing. Are environmentally friendly. Comes fully assembled, with locking castors, also comes in multiple selections of colors. Made in the U.S.A. with domestic and foreign parts.
