

**General Characteristics of Portacool Islander Series
 Evaporative Coolers**

The Portacool Islander Series evaporative coolers are ideal for residential, commercial, industrial and agricultural use. Used for indoor and outdoor use. These are not air conditioners or misters but evaporative coolers, plus are less expensive to run than an air conditioner. Made from polyethylene so they don't rust, crack or leak. Comes with a variable speed fan, cord wrap and 4 castors. Heavy duty castors are standard on the 48" coolers and optional for the rest. These items are easy to operate, clean and maintain. Maintained properly the pads should last between 3-5 years. The Islander cooler cools in a 360° or 14ft radius. Designed with a water control valve, water release valve and flow valve to fill the reservoir. Depending on the model the reservoirs can hold up to 20 gallons of water. Includes touch screen control and timer, plus it can be filled manually or with hose connection. No mist and no chemicals. Designed with water control valve and centrifugal air delivery. Are environmentally friendly. Comes fully assembled, with locking castors, also comes in multiple selections of colors. Made in the U.S.A. with domestic and foreign parts.

**Product Applications of Portacool Islander Series
 Evaporative Coolers**

Recommended for industrial, commercial, residential and agricultural use. For indoor and outdoor use, for hot spot cooling. Perfect for use in areas such as fitness areas, industrial, automotive, aviation and farms or anywhere, where animals are kept.

**Warranty of Portacool Islander Series Evaporative
 Coolers**

Manufacturer's Limited Warranty: 1 Year.
