

**General Characteristics of Ebac RM65 Dehumidifier
 Dehumidifiers PortaDry**

The Ebac RM65 Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air.

The Ebac RM65 Dehumidifier is a fast dependable, energy efficient drying unit.

The RM65 has an efficient Rotary compressor to ensure the maximum extraction with the lowest running cost.

Washable Air filter for easy maintenance.

Rugged wheels with shock absorbing semi-pneumatic tires.

The Ebac RM65 Dehumidifier has a collapsible Handle for easy transportation.

High capacity water condensation pump.

Hours Run Meter provides accurate run time.

The Ebac RM65 Dehumidifier has a unique "Reverse Cycle" defrosting feature which automatically melts away frost buildup providing effective operation at low ambient temperatures.

Durable Rotational Molded Polyethylene Housing.

Simple operation with a standard 115V plug.

Minimum Operating Temperature 41°F (5°C)

Maximum Operation Temperature 90°F (32°C)

R410a refrigerant.

**Product Applications of Ebac RM65 Dehumidifier
 Dehumidifiers PortaDry**

The Ebac RM65 Dehumidifier is first in a new range of Rotational Molded Polyethylene Housings. This super durable housing ensures the Ebac RM65 good looks, but is also capable of outperforming competitor's models of similar capacities. The collapsible handle and semi-pneumatic tires ensure transportation and maneuverability. It's lightweight yet robust design is ideal for commercial and industrial work. Its compact size permits one-man operation, yet it has the capacity to handle several room-size areas at a time.

The small, compact size of the RM65 allows the unit to be easily moved and transported from job to job.

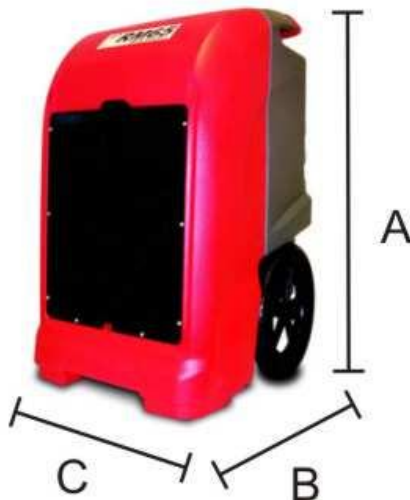

**Warranty of Ebac RM65 Dehumidifier Dehumidifiers
 PortaDry**

The Ebac RM65 Dehumidifier has a 1 year limited manufacturer's warranty.
