

General Characteristics of Pulley Driven Pump UltraLux by FogCo

The Pulley Driven Pump UltraLux by FogCo has a treated and powder coated enclosure. Ready to operate 24/7 indoor/outdoor.

It also includes exhaust fan, panel mount On/off switch, an inlet solenoid valve, an adjustable pressure regulator with bypass, a terminal relief, an hour meter and a glycerin filled pressure gauge.

The Pulley Driven Pump UltraLux by FogCo is designed for trouble free operation for 115V and 230V, 1 Phase, 60HZ.

The pumps include a rubber isolation foot, and a complete filter assembly including canister, cartridge, tubing and fittings.

The Pulley Driven Pump UltraLux by FogCo has a low 4 pole motor for quieter operation, and the operating speed of the bare pump is kept to a minimum thereby reducing noise and vibration while maintaining the proper pressure and flow requirements of the unit.

The Pulley Driven Pump UltraLux by FogCo pump components meet or exceed NEMA, ASTM, and NFPA standards.
