

**General Characteristics of RCP Series Frame in Ceiling Mounted Panel Heaters**

The RCP Series frame in ceiling mounted radiant ceiling panel heaters are designed to for recessed mounting applications.

They are 2" less in width to recess between nominal 24" center ceiling joists, and comes complete with recessed frame for finished construction.

Used for residential, commercial and industrial use.

Made heating objects not air for gentle toasty warmth for your comfort.

Made from a 20 gauge metal and finished with High temperature textured white powder coat.

Provides low surface temperature and broad heat distribution.

Comes with 36" pre-wired flexible cable for easy installation and wiring connections.

Manufactured to fit drop ceiling systems.

Electric resistance element is imbedded between two layers of insulation. High density thermal insulation above element minimizes upward heat losses.

Dual voltage 120 / 240 models are field convertible

Accessories: Silk Screen Panels require a full size sample of ceiling panel to be screened prior to quoting to verify feasibility of screening. All screens quoted separately.

It is ETL-CETL listed.

Made In the U.S.A.

**Product Applications of RCP Series Frame in Ceiling Mounted Panel Heaters**

For Residential, Industrial and Commercial use.

May be used nearly anywhere such as homes, schools, hospitals, motels and a broad variety of other commercial and industrial installations.

**Warranty of RCP Series Frame in Ceiling Mounted Panel Heaters**

Manufacturer's Warranty: 1 year.
