

General Characteristics of SEB Heat Buster Suspended Barrel Fan

The SEB Heat Buster suspended is a belt driven barrel fan, that is a low-cost air mover. Can be used in industrial or commercial areas. For indoor use.

Designed with an attractive heavy-duty tubing steel barrel.

Finished off with a powder coating and a compact conveniently located handle.

Comes with an automatic belt tensioner.

Units are 115, 60hz, single phase. With single or two speed

Motors are open drip proof.

Meeting OSHA requirements the SEB Heat Buster has a 10' grounded, 3 conductor cord with molded plug and spiral wound wire guards.

All weights are approximate and may vary slightly.

Product Applications of SEB Heat Buster Suspended Barrel Fan

It is used to cool factories, shops, bakeries, loading docks, laundries, gymnasiums, warehouses, aircraft hangars, and virtually any place a high volume of air movement is required. The fans portability allows it to be placed in convenient locations and can be easily put away for storage.

Warranty of SEB Heat Buster Suspended Barrel Fan

Manufacturer's limited warranty in the US: 3 years.

Warranty void if fan is left in rain or snow.

These products are built to order, therefore they are non-returnable or non-refundable.
