

General Characteristics of SPL Heat Buster Slim Portable Barrel Fan

The SPL HeatBuster Slim is a belt driven barrel fan, that is a low-cost air mover. Can be used in industrial or commercial areas. For indoor use. Designed with an attractive heavy gauge cold rolled steel barrel and tough rubber tread wheels. Finished off with a powder coating and a compact conveniently located handle. Comes with an automatic belt tensioner. Units are 115, 60hz, single phase. With single or two speed Motors are open drip proof. For maximum air flow these units come with deep pitched blades. Meeting OSHA requirements the SPL HeatBuster has a 10' grounded, 3 conductor cord with molded plug and spiral wound wire guards. All weights are approximate and may vary slightly.

Product Applications of SPL Heat Buster Slim Portable Barrel Fan

It is used to cool factories, shops, bakeries, loading docks, laundries, gymnasiums, warehouses, aircraft hangars, and virtually any place a high volume of air movement is required. The fans portability allows it to be placed in convenient locations and can be easily put away for storage.

Warranty of SPL Heat Buster Slim Portable Barrel Fan

Manufacturer's limited warranty in the US: 3 years. Warranty void if fan is left in rain or snow. These products are built to order, therefore they are non-returnable or non-refundable.
