

General Characteristics of UHP Series High Performance Maximum Duty Circulators

The UHP Series air circulators are used for both commercial and industrial use.

For indoor or outdoor use.

The guards are hinged for easy access.

The blades are steel hub/spider aluminum paddle blades.

Comes with coated steel guards.

The pedestal base has an option of a wheel kit.

There are four different mounting types, ceiling mount, I-beam mount, wall mount and suspension mount.

Pedestal steel dome base is 27" in diameter and has 5 carriage bolts.

Pedestal pole adjusts in the center of the fan from 48" to 67" inches.

Accessories: there are 3 choices in extension cords.

6', 9' & 12'. These are used with drop down power switches.

12' safety cable and clamps. Plus drop down remote switches.

All accessories are quoted separately.

Note: Oscillating motors can only be mounted, where the motor can be mounted in the upright position.

Meets OSHA standards and are ETL-CETL listed.

Made in the U.S.A. with domestic and foreign components.

Product Applications of UHP Series High Performance Maximum Duty Circulators

Used for both industrial and commercial use.

It is used to cool offices, factories, shops, bakeries, laundries, gymnasiums, warehouses, and virtually any place where ventilation is needed with a limited amount of space.

Warranty of UHP Series High Performance Maximum Duty Circulators

Manufacturer's Limited Warranty: 3 year
